- Relationship Building

Professional Experience

July 2017 - Present **The Difference Engine**
Developer

Cohort of passionate full-stack developers who meet outside of their primary jobs to create web app products for not-for-profit organizations.

- Backend developer for the site [ourveteranswork.com](https://www.ourveteranswork.com) (not yet live)
- Troubleshoot issues affecting production, stage, and development environments as requested using TDD principles (RSpec)
- Use AJAX, JSON with jQuery for request data and response processing
- Create and maintain the frontend standards using bootstrap, HTML, CSS
- Team with UX/UI designers to develop and implement client's vision

2011 - 2017 **Relish**

Small Business Owner

A women's lifestyle boutique offering fresh and innovative style, designed to assist women in presenting themselves using the unspoken advantage of carefully curated self-expression through fashion.

- Established and led all UX design
- Managed store website interface and backend
- Created and executed all marketing events and social media marketing
- Directed procurement of seasonal collections while maintaining stable cash flows from working capital through tight inventory management
- Managed all bookkeeping and pricing with wholesale vendors
- Built and retained extensive clientele list by providing excellent client service

2009 - 2010

Teva Tuteur

Compensation Specialist

A pharmaceutical company based in Buenos Aires, Argentina focusing on the development, manufacturing and commercialization of pharmaceutical products, specializing in the sectors of oncology and hematology.

- Dispensed and tracked compensation and benefits including payroll and leave management
- Planned and executed office events for internal functions and for external clients
- Designed and evaluated employee satisfaction surveys
